The Manifest of Proof

OBSIDIAN — Custodial Record Finality Infrastructure · Claims & Custody

Not luck. Well built — and we proved it. Over. And over.

This manifest is the record of authenticity for the work named above. Each proving was run from the standard, sealed with a dual signature, and recorded. One is placed in your hands to run yourself; the record of all three is set before you here.

THE THREE PROVINGS

	SEALED	RUN	RESULT
The Maximal Proof	25 July 2026	OBS-20260725-dce49095	3,791 checks · 16 suites · 0 failures · PROVEN
The Second Binding	26 July 2026	FV-20260726-556ACC15	Re-run cold, standalone · 3,791 · 0 failures · PROVEN
The Final Verification for Certification	30 July 2026	OBS-20260730-410aabf2	Rebuilt from nothing, engine fingerprinted · 3,791 · 0 · PROVEN

All three carry the same verdict over one dual-signed root — classical and post-quantum signatures together, Ed25519 and ML-DSA-65. Three runs, three separate days, the last rebuilt from nothing.

Once is a result. Three times, from scratch, on three separate days, is a property of the work.
