

REGNAVANT ISSUANCE GROUP · OBSIDIAN — CLAIMS & CUSTODY

Carried to the Line

Proven before you sign. Tailored to fit. Receipts you check yourself.

In a field where most never arrive — this one was carried to the last stride.

01 Quantum-safe, today.

Every record carries a post-quantum signature now — not a promise for later.

ML-DSA-65 · FIPS 204

02 It cannot be quietly changed.

Append-only. Nothing is erased or overwritten — every correction appends on top, sealed with who, when, and under whose authority. Put to a regulator or a court, the record answers. Your hands stay clean.

APPEND-ONLY · AMEND-BY-APPEND · RFC 9162

03 Tailored to fit.

Subscribes to the events your own platforms emit and seats into your systems of record. Proven on your stack — not a universal box forced on.

FITTED TO YOUR SERVERS · NO MIGRATION PROJECT

04 Check it yourself.

A standalone verifier in Python and JavaScript re-proves every record with public tools — you never have to solely trust our word.

IMPORTS NOTHING OF OURS

05 3,791 checks. Zero failures.

Graded against the world's own answer keys — not tests we wrote.

WYCHEPROOF 150/150 · NIST ACVP 15/15 · PROVEN

06 Carried to the Line.

You arrive at the finish already proven. Every receipt checks out before you sign — and the final stride, the live anchor, runs in your own house, because it can only be posted there.

INDEPENDENTLY VERIFIABLE NOW · ANCHORED LIVE WHEN YOU RUN IT
