

HOUSE OF REGNAVANT · FOR THE ACQUIRER

The House Signature

Every receipt we issue carries our signature — verify it yourself.

This is our House identifier. The same permanent key signs every receipt we give you, across every system — so your own team can confirm a receipt is ours and unaltered, with public tools, nothing of ours required.

On this receipt

System: OBSIDIAN — Custodial Record Finality Infrastructure
Record: Anchored Root Receipt · root 5CC12E29... · 100,000,000 records
Signed: Ed25519 (now) + ML-DSA-65 (thirty-year)

Confirm it yourself

```
python3 verify_house_seal.py <receipt>.json
```

VERIFIED — signed by House of Regnavant, unaltered.

Checked by your own team, with public tools. Nothing of ours required.

The House identifier

```
public key : de0386d6ba1f8e044709f7e38cbb018e648926c9e78bcb7c98f976149f3977e5  
signature  : 029aa27a5f7ff278f931e1cb33937de6b98ba3bdf28e554bfedb6d3ffc44165d9...  
same public key on every receipt · it can only CHECK, never sign
```

Change one character of the receipt and this same check reads INVALID. That is the point.
